About

I am a computer science student studying for my degree at the University of Surrey. I am currently looking to gain some work experience in this industry, especially in programming, so I gain the relevant skills and experience ready for a working career when finish my studies at university. I am a black female in a highly male-dominated industry which does scare or worry me, but I would like a fair opportunity to learn and get an internship during my studies.

Skills

Communication skills: I have effective skills which are essential for clear and concise interaction with colleagues and clients, and stakeholders.

Problem-solving and critical thinking: The ability to analyse complex situations and think creatively.

Leadership skills: I can take charge, inspire, and motivate others, and effectively lead teams.

Adaptability and flexibility: Demonstrating the ability to adapt to changing circumstances.

Time management and organizational skills: I can meet deadlines, and effectively manage workload.

Technical: my use in specific tools, software in basic but I am ready to learn

Attention to detail: high level of accuracy and precision in my work, minimizing errors and ensuring quality outcomes.

Work experience

Crew trainer 2021 - 2023

- Make sure everything is running smoothly and checking up with the crew if they need assistance.
- Help train people effectively to do the job to the best standard.
- Thinking on my feet when unexpected thing pops up Working well with people from different backgrounds.
- Always on time and showing up when help is needed.
- Promoted within 5 months due to hard work.
- Good communication skills dealing with customers.

Throughout my employment at McDonald's, I have consistently showcased exceptional communication skills, fostered strong teamwork abilities, and demonstrated a relentless commitment to providing outstanding customer service. Working closely with a diverse team of colleagues, I have nurtured and embraced a collaborative work environment. I have learned how to effectively balance multiple responsibilities, addressing customer needs promptly and efficiently, while ensuring the smooth flow of food preparation and service.

Store assistant 2023 - present

- Greeting customer making them feel comfortable have a nice experience.
- Helping customer throughout the store answering their questions
- Working as a cashier. Assisting customers at cashiers giving the right receipt, change and packing well.
- Time management always on time

As a store assistant at Primark, I took pride in giving customers a great experience. From answering their burning questions, they may have to finding a certain dress, size or colour I was here to assist them. Alongside that I also worked a cashier accurately processing transactions and assisting customers with receipts, change, and packaging. I take my job very seriously take pride to always being on time.

Education

St Bernard's high school Westcliff 2016-2021

During school I was a Charity prefect, a prefect, and a part of the school council. I finished school passing all including maths, English and science.

Harris academy chafford hundred 2021-2023

I was a part of the debate team in school going against other schools where I learnt how to express my views and learning from others. The A levels I studied at my colleges were politics, economics, and maths.

University of Surrey 2023 – present

I am currently a computer science student at the university of surrey. Along with my studies, I am a part of the women in STEM society, Robotics society and the Entrepreneurship society. I have future aspirations of when I finish university to work with in the tech industry. To work with a great company that has an impact in the tech industry future.
